

Pupil Acceptable Use Policy Agreement (KS2)

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times. The school will try to ensure that pupils will have good access to ICT to enhance their learning and will, in return, expect the pupils to agree to be responsible users.
